# FIFA WORLD CUP Qatar 2022 REVIEW

- This edition of the world cup is the first one held in a middle eastern nation, Qatar and they have nailed it.
- It`s the first ever world cup to be played in the winter, because of the hot conditions in the summer.
- Qatar 2022 is already filled with upsets, teams like **Saudi Arabia** beating the favourites **Argentina** and Japan beating the footballing giants **Germany**.

## Our favourite teams

## PREDICTIONS

- Our predictions are:
  - Mbappé to be the top scorer
  - Player with most assists will be Kane
  - Wonder strike of the tournament will go to richarlison
  - The final will be between **Brazil** and **England**

- This is most likely the last shot at a world cup trophy for legends like Ronaldo, Messi, Lewandowski, Neymar, Neuer and Mandanda
- On the other hand, we have young prospects who are about to take the world stage by storm like Musiala, Pedri, Bellingham, Vinicius Júnior and Ibrahimović
- It would be a dream come true for a lot of people if Ronaldo`s **Portugal** and Messi`s **Argentina** faced off in the final. The biggest stage would be set to confirm who the G.O.A.T. is (greatest of all time)

To be continued...

# Interview with the head teacher

## Why did you decide to be a head teacher of this school and when did you take up the position?

I have been in the office since August 2009. I have known "Československá akademie obchodní" since I worked at the Prague City Council and I had this school in my gestion, basically I was responsible for it. When the head teachers position opened up I wanted to do it so I auditioned.

## How can one get into a position like that?

Firstly you have to make up a philosophy of how a school should work for the first few years, then you take all types of tests and more importantly an interview with a representative of the City Council, the Educational Department, school representatives, representatives of the School Council and the School Inspection. They make up a committee that then chooses from all the participating candidates. They all must go through this process in order to even be considered for the position by the committee. In the end a board of the City Council has to vote and name the head teacher. Every 6 years I (as the headteacher) have to complete a similar process without the other candidates, in order to be approved again.

## What does this position involve?

Responsibility for everything. It contains personnel policy, pedagogy, financial management, legal decision making, philosophy of the school, where it's heading and a lot more. But most of these things are done by other colleagues and I have to trust them because I don't know about everything that's going on in this school. I am responsible for it, but I don't know everything in detail, otherwise I wouldn't be able to handle it.

## How did you come up with the specialization of our school?

I was already focused on English in my philosophy, it was my idea. But the whole elaboration afterwards was a collective work. I had already done this with other teachers. I don't know what the content of Economics in English should be, I am not an economist or an English teacher, it just occurred to me that we would have specialized subjects in English. The fact that teachers at our school are highly qualified means that the programmes not only work, but keep moving forward. It wouldn't be possible without our teachers.

Management in advertising and Art was also my idea because I wanted to change the educational program a bit. Carrying it out was a collective effort. I or anyone else come up with an idea and then it's developed. Everyone gets involved and everyone embraces it because everyone is a part of it.

### How are the teachers chosen and why do they change so often?

They have changed a lot this year and unfortunately it is because of health reasons. Last year it was not as bad, but this year it's "making my hair fall out". We choose new teachers through a selection process, we usually advertise and get offers, there are many offers, but few of them meet our requirements. Those who meet our requirements, or at least partially, will be invited to an interview. If they make a good impression at the interview, we invite them and observe their method of teaching. We only make decisions afterwards, but if we are under a lot of pressure and need someone "tomorrow", then we will already rely on how they performed during the interview. Also we want to witness how they teach and we ask the pupils how they liked the lesson, because your opinion is also of importance.

### What was your dream job when you were little?

A teacher, but only until the age of five, then I got over it.

**„When I think about the future of this school, whether in terms of curriculum offerings, building facilities of our own presentation, I always want us to be special, to not be one of many“**

**- Mgr. Dagmar Blažková**
