table tennis

For how long have you been playing table tennis?

- I played table tennis for six years for family reasons. I got to this sport through my dad, who practiced it as a kid. I wanted to start a sport and since the table tennis is practiced close to my house, it was a clear choice.

For which club you were playing?

- I played for the SK Viktorie Ořech club.

Why did you end playing table tennis?

- I played in the teen and girl categories. I quit because of age. Table tennis is not a very popular sport nowadays, so in the adult category, players are already 50+ years old and I was the only girl.

How many times have you placed?

- Honestly, I don't know how many times i've placed. I've placed a lot of times.

What was your biggest succes?

- My biggest success was winning the District Champion in the district in Prague-West.

Do you regret quitting table tennis?

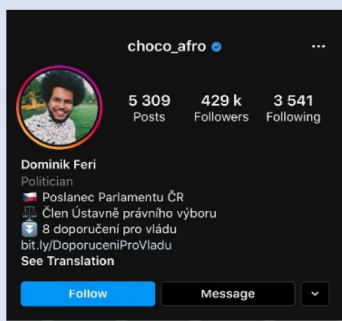

- Thanks to table tennis I met a lot of people and I do not regret that I played this sport. It gave me a lot and even today I sometimes like to get behind the table with a bat.

TOP 3 INSTAGRAM ACCOUNTS OF SEPTEMBER

@choco_afro

– Dominik Feri is a member of the CZ parliament and of the Constitutional Law Committee. He posts daily updates about the Covid-19, what's happening in the parliament but also funny photos.

If I may, I'd like to add that all kinds of suggestions to make the account better are welcomed. Apparently it's still a school account, it needs to be somehow decent - and I bet there are plenty of other secret accounts full of school gossip :) Though, feel free to express any constructive criticism. I'm far from being an expert, I'm not a teenager anymore and there is no desire to have the best account on the planet. But still I like it, I believe it's both efficient regarding information and enjoyable as for the photos, and I hope you like it (at least sometimes) as well.

@cao_resslova5

The official Instagram account of our school has over 400 followers. They post important information and updates. Their feed is full of school trips, competition winners, maturita prom etc.

We asked Mgr. Hana Stehlíková (the account owner) some questions about the account:

Who came with the idea of creating this account?

When was the account created?

Me :) Back in 2017 when I started working here, there was only a FB account with a great number of followers but not much was happening on the page. That was nobody's fault, my colleagues had plenty of other work, definitely more important than social media. So first of all, I helped our IT king Mr Kral manage FB, afterwards, I consulted creating an IG account with our head teacher and she agreed. Therefore, the April of 2019 represents the birth of our school account :)

What was the reason ?

To be honest, not only did I want to be helpful (do some extra work) but also imagine that Resslerova 8 had had the account even before and we had none :) It was my duty to change it. Just kidding...partly. It's obviously trendy and cool to have a school account, both the students and the newcomers can benefit from that. Actually, the school itself consequently might as well. But I'd like to have the account linked more with you, the students. To start a "tradition" of you sending photos or tagging school because I can't be everywhere. I mean there are lots of excursions and trips you guys have, you have undoubtedly a lot of fun at school, you make wonderful projects during the lessons, and I can't take all the pictures. The school needs your photos to have better feed :)

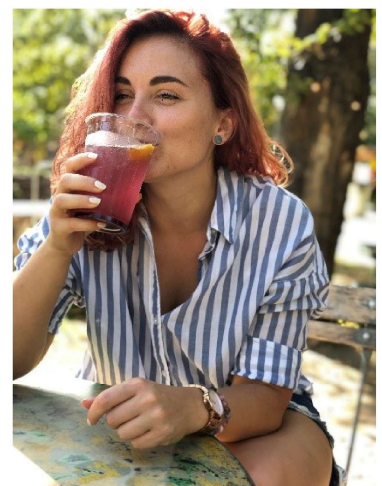

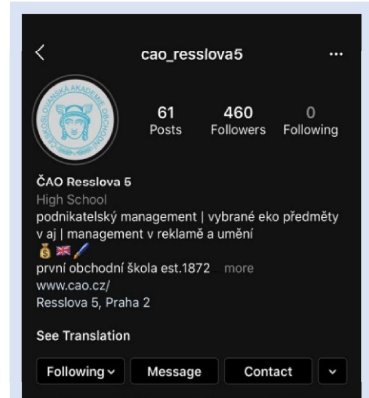

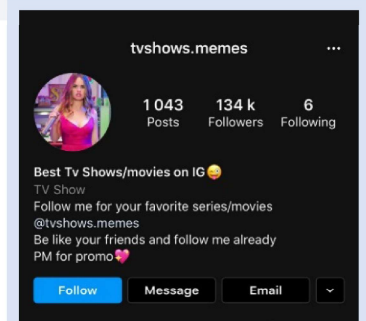

Are there any other owners?

Tricky question. There is only me posting everything. However, both Mr Král and Mrs Blažková have the password. Nevertheless, I'm not quite sure they have ever used it.

GUESS THE SONG

She has got style
She's funny and smart
And when she walked by
The whole street fell silent
Shhh

She doesn't have friends around
They say goodbye to levels
She is the only star here
She's talking to me
She's fine

When she's next to me I have no idea
I'm just a little stick figure
She's flawless
She will only be mine
Shoulder alarm

She is addictive
Where have my words gone?
I just feel that condition is coming again

Re: I have beetles in my head
I have butterflies in my stomach
I have ants in my hands
And you've only been here for a while
